

# Product Specifications

## Analog Salt Meter — Salinity Refractometer

<b>Scale</b>	Specific Gravity (SG) d20/20; Parts per Thousand (PPT) 0/00
<b>Range</b>	0-100 PPT; 1.000-1.070 SG
<b>Resolution</b>	1.0 PPT; 0.001 SG
<b>Accuracy</b>	±1.0 PPT; ±0.001 SG
<b>Automatic Temperature Compensation Range</b>	50°F to 86°F (10°C to 30°C)
<b>Dimension</b>	30 mm width x 205 mm length
<b>Weight</b>	207 grams
<b>Focus</b>	Manual, adjustable

### Model 24240

- Hand-held analog meter
- Light-weight, portable, includes protective carrying case
- Measures concentration of salt and dissolved solids in aqueous solution
- Provides reading in parts per thousand (PPT) and specific gravity (SG)
- Automatic Temperature Compensation (ATC)
- Ideal for on-site measurements in processing and storage areas, or in the field
- Determine salinity during preparation of pickles, seafood products, frozen vegetables and fruits

DeltaTrak manufactures products under an ISO 9000 registered quality management system
